

Kreinik Blending Filament

Thread that can do... *everything!*

Kreinik Blending Filament (also known as "Balger®") is a soft, lightweight metallic thread that can be used anywhere. Blending Filament comes in Basic, Hi Lustre, Holographic, Glow-in-the-Dark, and Vintage colors to offer a variety of finishes and light reflecting properties. It's the perfect thread for adding a special dimension that transforms ordinary projects into the extraordinary. Make water shimmer, snow sparkle, and lights glow.

For Machine Sewing & Quilting...

- creates 3-d effects
- can be used in needle or bobbin
- delicate reflective highlights
- extensive color range
- stitch slowly
- use metafil needle
- hand & machine washable

For Cross Stitch...

- use alone for backstitching, over stitching, filling stitches or combine with other threads for a random sparkle
- use a tapestry needle size 22, 24, 26 or 28
- use short lengths (18" or less)
- knot onto your needle to secure while stitching

For Needlepoint...

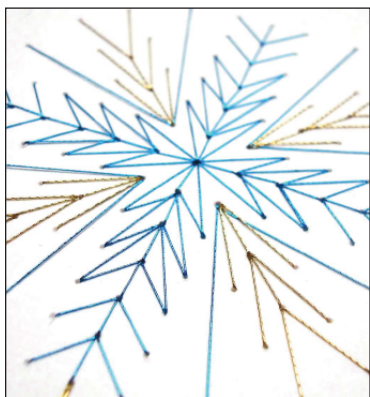

- offers a delicate metallic look
- use for fine details in background work
- can be used on silk gauze
- perfect for adding reflective highlights between stitches
- ideal for layered stitches

For Crochet & Knitting...

- adds just a touch of sparkle
- use as a carry-along thread with other fibers to create unique yarn blends
- soft and smooth material
- lightweight, does not add bulk
- hand and machine washable

For Scrapbooking/Paper Crafts...

- adds sparkle and dimension to stitched cards
- perfect for perforated paper
- 100+ colors to coordinate with decorative papers
- thin size does not add bulk to mailed cards
- beautiful in Spirelli and string art

For Fly Fishing...

- reflective body wrap
- can be used as winging material
- perfect on smaller flies
- make your own flash
